

SWIFTSKALE | BUSINESS DATA ANALYTICS BOOTCAMP | SS-BA-BTC8

PROJECT BRIEF: EXCEL SKILLS JOB SIMULATION

JOB SIMULATION PLATFORM
Forage Academy – Excel Skills

LEARNING FORMAT
6–7 hours • Self-paced

DIFFICULTY
Intermediate

PROJECT DEADLINE
Thursday, 5 November 2026

Simulation link: Open the Forage Excel Skills simulation

JOB SIMULATION DESCRIPTION

This hands-on simulation helps Business Data Analytics interns build practical Microsoft Excel skills for workplace-style analysis. Interns will explore and prepare business data, identify trends, streamline repetitive workflows, develop clear visual reports, and translate results into actionable business insights.

APPLICABLE JOB ROLES

Data Analyst • Business Analyst • Business Intelligence Analyst
Reporting Analyst • Operations Analyst • Junior Data Analyst

SS-BA-BTC8 / FORAGE ACADEMY

PROJECT TASKS SUMMARY

Complete all four learning tasks in the simulation and compare your work with the guidance provided on the platform.

01	**DATA PREPARATION AND EXPLORATION** • Explore and clean business datasets; identify missing values, errors, and inconsistent records. • Apply Excel shortcuts and conditional formatting to improve analysis efficiency.
02	**DATA ANALYSIS AND AUTOMATION** • Analyze business performance to uncover meaningful trends and patterns. • Use Excel analysis techniques and macros to automate repetitive workflows.
03	**DATA VISUALIZATION AND DASHBOARD DEVELOPMENT** • Create charts that communicate key business metrics effectively. • Develop a clear Excel dashboard to present results professionally.
04	**BUSINESS INSIGHTS AND RECOMMENDATIONS** • Interpret findings and identify opportunities for business improvement. • Translate the analysis into concise, actionable recommendations.

DEADLINE AND RECOGNITION

PROJECT DEADLINE
Thursday, 5 November 2026
Complete all four tasks by the deadline.

CERTIFICATE OF COMPLETION
Earn a Forage certificate when you complete the simulation. Retain it for your CV, LinkedIn, and portfolio.

EXPECTED OUTCOME

Demonstrate stronger Excel skills in business data preparation, analysis, automation, visualization, and insight communication.

YOUR MISSION Complete the simulation, earn your certificate, and strengthen your readiness for real-world business analytics roles.
